**3<sup>o</sup>.- Duration of education and degree. If a specific for dental hygienist master education is available mention this with the address. If the course is given in English (for countries other than the UK or Ireland) please mention this as well**

The hygienic colleges provide 3-year training. There were 2 graduations of hygienists in Ukraine, and now there are about 780 of them. They have developed postgraduate programs for dental hygienists on the basis of the Kyiv National Medical Academy of Postgraduate Study named after P.L. Shoopik and Dentistry Institute of Medical Science of Ukraine (Odessa), as there are no schools of postgraduate study for dental hygienists at the moment in Ukraine. Nowadays virtually every private dental clinic has a dental hygienist. Before the appearance of dental hygienists, oral hygiene has been performed by dentists.
