

BSP CONFERENCE 2023

TEAMS WORKING TOGETHER FOR SUCCESS

WEDNESDAY 11TH – FRIDAY 13TH OCTOBER 2023
BIRMINGHAM

www.bsperio.org.uk

British Society of
Periodontology and
Implant Dentistry

PRESIDENT'S INTRODUCTION

I am honoured to have been elected President of BSP for 2023 and to be able to work with colleagues to deliver an Annual Conference that aims at engaging all members of the oral healthcare community. The Conference, entitled 'Teams - working together for success', is based on my strong belief that we need to work closely together with a common goal in order to deliver the best treatment outcomes for our patients.

The Conference starts on Wednesday morning with a new collaboration between BSP and the British Society for Oral and Dental Research (BSODR) to help support early career researchers in developing their careers and in delivering future research to benefit our patients.

The afternoon will allow early career researchers to compete for the prestigious Sir Wilfred Fish Prize, with the winner having the opportunity to present in the main Conference. This will be followed by a keynote lecture sponsored by our industrial partners covering important clinical based topics.

The Conference on Thursday and Friday will develop the teamwork theme, from our patients views and opinions, contemporary patient management, working with other dental specialties, through to the future of periodontal care.

I do hope you will come and join us and look forward to welcoming you to Birmingham 11th – 13th October 2023.

Prof Mike Milward 2023 President

The Conference Dinner will be held at The Book Rotunda, Birmingham Library, on Thursday evening

WEDNESDAY 11TH

Morning session: Periodontal Research, joint meeting of the British Society for Oral and Dental Research (BSODR) and BSP, to support early career researchers and promote periodontal research collaborations.

Afternoon session: Sir Wilfred Fish Prize Presentations, Educational Group & Early Career Group meetings, and a keynote sponsored lecture.
