Information on tuition fees,  
applications and requirements  
for entrance can be obtained at  
(odonfacultad@gmail.com)

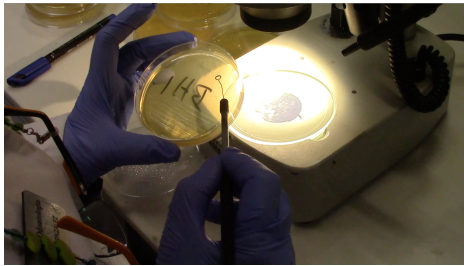

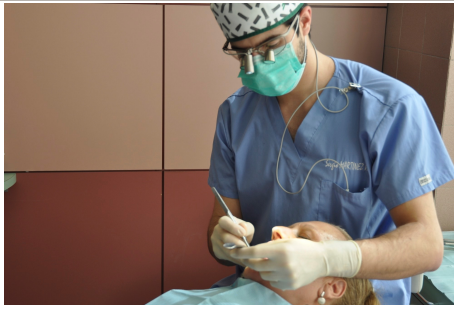

This program is organised in three full-time years (6 semesters – 40 weeks/year) comprising 180 European Credits (ECTS). The academic content leading to an Academic Master Degree will be 110 ECTS, including the Research Presentation. The Speciality Certificate can only be obtained after completing both the Academic Degree and the required clinical training and achievement of competences and proficiencies (70 ECTS). Both the Academic Degree and the Speciality Certificate are inter-linked in such a manner that one cannot be obtained without the other.

	Didactic Learning	Study and Preparation	Evaluation	Clinical Time	Research	ECTS
1st Year	13	16	1	25	5	60
2nd Year	11	13	1	25	10	60
3rd Year	11	13	1	20	15	60
	35	42	3	70	30	180

#### General Distribution of ECTS Credits by Year

Achievement of competences and proficiencies in advanced periodontics and surgical implant dentistry is our main objective, but this must be coupled with developing skills in clinical and basic research, critical thinking and appreciation to the detail and excellence

This program combines learning in both basic and clinical sciences through taught courses, literature seminars, clinical sessions and treatment planning seminars

## **FACULTY**

Teaching staff includes full time, part time and invited teachers. More than 50 teachers and instructors are involved in the didactic and clinical learning process.

**Full Time Staff:** Mariano Sanz, David Herrera, Elena Figuero
