

**PERIODONTOLOGY
MClinDent /
2019/20 ENTRY**

www.ucl.ac.uk/graduate/

Periodontology MClinDent /

This full-time, three-year Master's programme provides intensive knowledge of the basic principles of periodontal diseases, the management of advanced periodontal cases and the surgical components of implant dentistry. This programme satisfies the training requirements to sit for the Membership in Periodontics (M Perio) or Membership in Restorative Dentistry (MRD) - Periodontology examination.

Degree summary

The programme offers students the ability to assess and manage the periodontal needs of a patient and to become competent in the presentation, diagnosis and management of all known diseases and disorders of the periodontium.

// Students benefit from first-class facilities and access to a wide range of clinical cases and techniques as well as internationally renowned speakers and honorary staff members.

The programme is delivered through seminars, tutorials, individual and small-group teaching, self-directed learning, and practical clinical and experiential learning; with maximum exposure to clinical methodologies and management of patients with periodontal diseases.

Accreditation

The MClinDent has been an accredited postgraduate training programme from the European Federation of Periodontology (EFP) for more than 15 years.

Degree structure

Mode: Full-time: 3 years

Location: London, Bloomsbury

Students undertake modules to the value of 540 credits. The current structure of modules is under review and may be updated in February 2018. Year one consists of core modules (180 credits). Year two consists of core modules (180 credits). Year three consists of core modules (120 credits) and a dissertation (60 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

COMPULSORY MODULES

- // Principles of Non-Surgical Treatment
- // Clinical Science and Research Methods
- // Scientific Basis of Periodontology
- // Periodontal Therapy 1: Non-Surgical and Basic Surgical Therapy
- // Periodontal Clinical Care 1
- // Investigation Leading to MClinDent in Periodontology Dissertation 1
- // Periodontal Therapy 2: Advanced Periodontal Therapy (b)
- // Periodontal Clinical Care 2

OPTIONAL MODULES

There are no optional modules for this programme.

DISSERTATION/REPORT

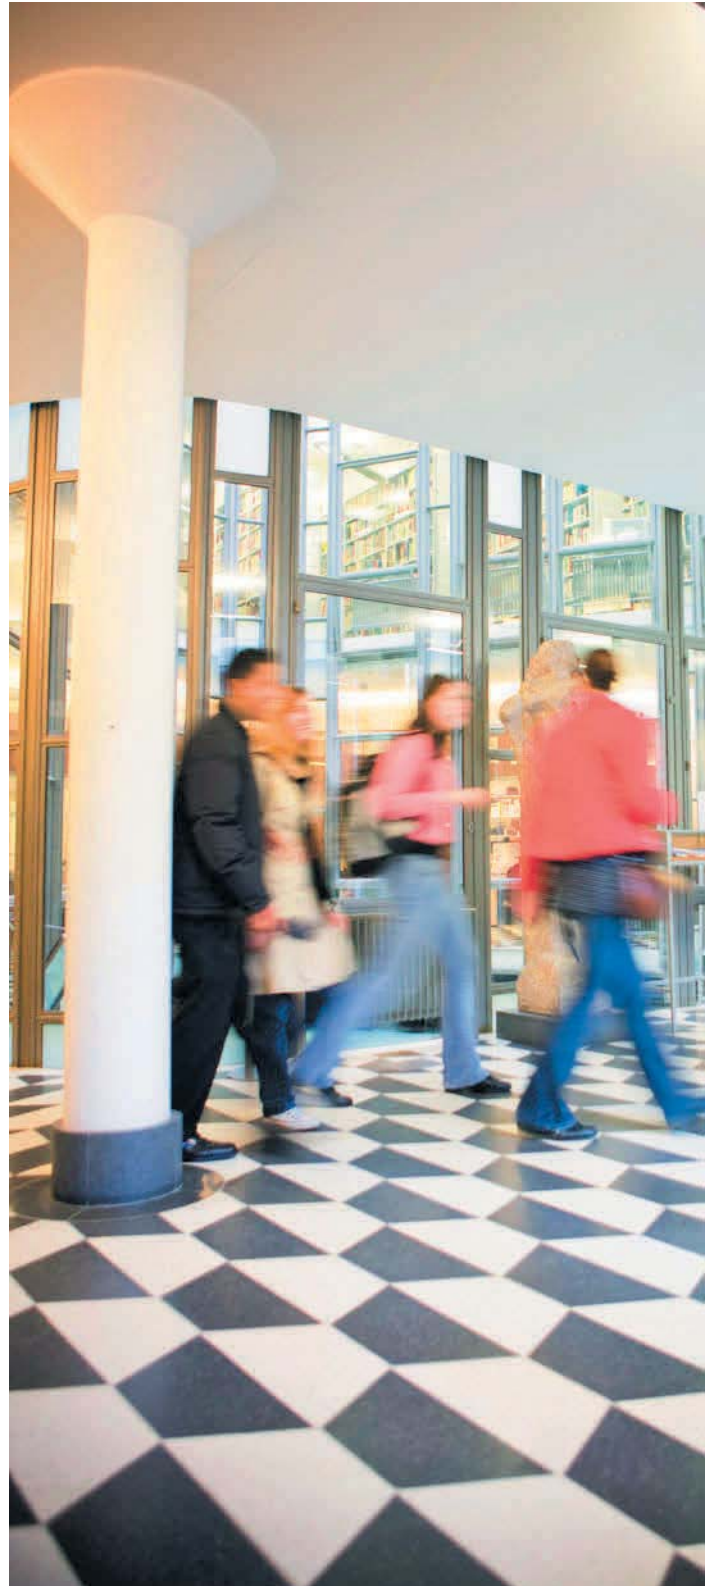

- // Each student undertakes an independent research project which culminates in a dissertation of approximately 13,000–15,000 words.

Your career

The programme offers the intensive knowledge and clinical expertise necessary to practise periodontics at a specialist level.

Employability

Following completion of the programme, graduates have joined or started dental practices in the UK, EU and overseas working in the field of periodontics and implant dentistry. Some graduates have followed clinically related PhD programmes and have been appointed to academic positions in dental schools in the UK and overseas. A number of international graduates have been appointed to prestigious governmental positions in their countries.

Entry requirements

All applicants must hold an approved dental qualification and have a minimum of two years' clinical experience post-qualification.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at:

www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- how your academic and professional background meets the demands of this programme
- why you want to study periodontology at graduate level
- what particularly attracts you to this programme
- where you would like to go professionally with your degree and how this programme meets your needs.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at:

www.ucl.ac.uk/prospective-students/graduate/taught/application.
