THE ROAD TO COPENHAGEN

WELCOME TO THE WORLD OF EUROPERIO!

After rescheduling EuroPerio10 due to the covid-outbreak, we are ready to fully embrace the road to Copenhagen by introducing the new EuroPerio Series. With these online sessions, we are taking virtual education a step further to bring the world of EuroPerio directly to our community all over the world. The EuroPerio Series serves as a building block until the EuroPerio10 in Copenhagen. Until then we offer you interactive educational sessions that follow the contents of previous congresses paired with the new topics of the field.

Taking the most interesting insights of former EuroPerio Congresses and Perio Master Clinics and conveying them to the online space, we enable the community to fully immerse themselves into the scientific discourse of periodontology and implant dentistry. Thus, we offer another way to acquire additional insights and knowledge regarding the world of periodontology and implant dentistry - anywhere at any time.

In a precise manner, the series focuses on active engagement and interactive content in order to encourage professional discussions and scientific exchange between the experts and the community. Participants have the chance to get in touch with the leading experts in the field, initiate informed discussions and further develop their insights with the professional exchange.

KEY FACTS:
